iCoreVerify

Get automated insurance verifications faster than you read this sentence.

For *every* patient on the schedule

Up to 7 days before the appointment

- In-depth results may include payer, provider, subscriber, coverage type and dates, deductibles, maximums, plan provisions and any limitations*

- If a report request fails, iCoreVerify clearly identifies the specific error and how to correct it

- Error-free reports mean higher case acceptance and far less time adjusting and/or chasing down payments

- Automated access to 2,100 carriers substantially reduces hours wasted logging into carrier portals and making lengthy follow-up calls

- Reduces cost and time associated with insurance eligibility and benefit verifications

Results vary based on information the carrier makes available
